

Operations Technician

ANGLE is a world leading and growing liquid biopsy company that develops products for use in rare cell diagnostics that enable early, accurate identification of an individual's condition for the prevention, treatment, and monitoring of disease.

ANGLE's research and development facilities in Guildford, UK are looking for an Operations Technician to join our fast-growing team. The Operations Technician contributes to the smooth running of the laboratory, providing operations support to the wider scientific team, while working within the Laboratory Management group.

Essential responsibilities:

- Responsible for quality and regulatory compliance of work undertaken;
- Contribute to the running of the laboratory facility, including receiving and unpacking deliveries, completing stock checks and placing orders to ensure all required stock is maintained at the correct levels;
- Formulating buffers and cleaning laboratory and equipment as required;
- Supporting the Senior Operations Technician in arranging for equipment to be calibrated and or serviced as and when required;
- Ensuring all equipment and consumables are labelled correctly in accordance with laboratory QMS;
- Supporting the correct management of defective instruments including carrying out instrument acceptance tests and maintaining associated records within the laboratory QMS;

Qualifications/requirements:

- 'A' Levels plus one year of relevant laboratory experience;
- Experience of working to strict quality standards such as ISO9001 or preferably ISO13485 would be a significant advantage;
- Strong team player with excellent communication skills.

As a member of our excellent and fast-growing team you will receive opportunities for development and a competitive benefits package.

Salary estimate: £19,000

Please send cover letter and CV to careers@angleplc.com
