

Cell culture specialist

ANGLE is a world leading and growing liquid biopsy company that develops products for use in rare cell diagnostics that enable early, accurate identification of an individual's condition for the prevention, treatment, and monitoring of disease.

ANGLE's research and development facilities in Guildford, UK are looking for a **Cell Culture specialist**.

The Cell Culture Specialist will implement and assure the smooth running of the cell culture facility and provides technical support to the scientific team. The job is laboratory based working in a multi-disciplinary team.

Essential responsibilities:

- Responsible for implementing the cell culture platform in accordance with the R&D group leader.
- Responsible for day to day running of cell culture facility, including maintaining of mammalian cell lines, receiving and unpacking deliveries, formulating buffers and maintaining cell culture facility consumables as required. Keeping the cell culture facility clean, tidy and minimising contamination risks at all times;
- Responsible for maintaining excellent cell culture documentation as appropriate within the quality system. Ensuring the regulatory compliance of all work undertaken by themselves and any other work carried out in the cell culture facility;
- Strong team player with excellent communication skills, work ethic and attention to detail.

Qualifications/requirements:

- B.Sc. or equivalent in Life Sciences gained on a course that includes practical laboratory work, or 'A' Levels and 5 years of relevant laboratory experience;
- Excellent aseptic technique and extensive relevant technical knowledge are required, with at least 2 years prior practical full-time experience in cell culture and use of cell culture equipment;
- Experience of working to strict quality standards such as ISO9001 or preferably ISO13485 would be an advantage. A strong understanding of the importance of accurate record keeping within a strictly controlled quality system is essential.

As a member of our excellent and fast-growing team you will receive opportunities for development and a competitive benefits package.

Please send cover letter and CV to careers@angleplc.com
