

Parsortix® liquid biopsy
Cells for precision medicine

Clinical Scientist I, Cytotechnologist - ANGLE North America Inc, Pennsylvania

Come and join our dynamic team of highly skilled, passionate, creative professionals who together are advancing rare cell diagnostics and making precision medicine a reality.

ANGLE has unique technology addressing critical needs in the rapidly growing liquid biopsy market which provides a simple and effective way to capture circulating tumor cells from cancer patient blood. The technology is being commercialized in both Europe and North America.

We are an equal opportunity employer and provide a challenging and stimulating workplace environment.

Position Summary

The Cytotechnologist plays a crucial part in the discovery and detection of disease, cancer, and pre-cancerous changes in cells. The incumbent employs their cytology expertise to compare normal and abnormal cell anatomy and evaluate the significance of the differences to identify disease in various stages.

Essential Duties and Responsibilities:

- Process and analyze samples for circulating tumor cells or other rare events
- Provide cytology expertise, working with R&D and other departments in the development and implementation of new assays
- Assist in the development of laboratory Standard Operating Procedures (SOPs)
- Maintain regulatory compliance with CLIA and all other applicable regulations
- Maintain safety guidelines for clinical laboratory environments
- Perform such other duties and responsibilities that are consistent with the role of a Clinical Scientist I, Cytotechnologist or as may be assigned from time to time

Required Experience, Education and Knowledge:

- B.S. in Cytotechnology or Biology combined with 2 years' clinical laboratory experience, or an equivalent combination of experience and formal education
- Board certification as CT(ASCP)CM
- Flexibility to work some weekends

Key Attributes:

- Strong scientific/technical aptitude
- Good visual inspection skills combined with tolerance for repetitive work
- Exceptional organizational and time management skills
- Strong verbal and written communication skills
- Ability to multitask and prioritize to meet deadlines
- Ability to work both independently with minimal supervision as well as in a team environment
- An eye for detail and commitment to high quality data
- Continuous learner with a keen appetite for cross-disciplinary work
- Flexibility and a "can do" attitude
- Entrepreneurial thinking and work ethic
