Laboratory Technician

Come and join our dynamic team of highly skilled, passionate, creative professionals who together are advancing rare cell diagnostics and making precision medicine a reality. ANGLE Biosciences is conveniently located near Pearson International Airport with access to some of Canada's best academic and health researchers in the Greater Toronto Area. We utilize the innovative value of the diverse and talented culture of this region to continually enhance the R&D and diagnostic expertise of our company. We are an equal opportunity employer and provide a challenging and stimulating workplace environment.

Position Summary

The role of the **Laboratory Technician** is to carry out R&D and related tasks in a biological research laboratory focused on the development and deployment of a microarray system designed for diagnostic use. The role plays an active part in providing support for R&D operations and contributing to the routine maintenance and infrastructure management of the laboratory.

Essential Duties and Responsibilities:

- Perform a range of laboratory processes according to established SOPs
- Contribute knowledge and skills to technical problem solving and product development activities
- Contribute, as required to laboratory management tasks (e.g. H&S, inventory and purchasing)

Required Knowledge and Education:

- Minimum community college diploma or B.Sc. preferred, or equivalent combination of education and experience
- Operating knowledge of basic performance in a biological laboratory and instrumentation used in such laboratories
- Understanding of the principles of molecular biology and/or immunoassays is desired
- Working knowledge of appropriate regulatory requirements (cGMP, ISO, workplace safety) desired
- Basic computer skills including fluency with Microsoft Word and Excel

Required Skills and Core Competencies:

- Proficient routine laboratory skills (e.g. pipetting, operation of laboratory equipment)
- Excellent manual dexterity
- Good visual inspection skills combined with tolerance for repetitive work
- Good oral and written communication skills
- Ability to multi-task in a time efficient manner
- Attention to detail in following written SOPs and producing error free records
- Ability to work independently and in a team environment
- A "can do" attitude coupled with entrepreneurial thinking and work ethic

Highly Desired Experience:

- 1-2 years industry experience, preferably in a regulated manufacturing or laboratory environment
- Medical device manufacturing experience a definite asset
- Experience in cell culture maintenance and quantitative experimental work involving cells is desired

How to Apply

Please submit your resume, along with a cover letter to jobsABI@angleplc.com or apply directly to our website at <https://angleplc.com/careers/>

Please reference in the subject line the role: "Laboratory Technician".

All applications will be kept confidential. We thank all candidates for their interest but, **only** candidates selected for an interview will be contacted.

Please **NO** recruiters.

At ANGLE Biosciences we value diversity and encourage applications from all qualified candidates including women, visible minorities, Aboriginal peoples, and persons with disabilities.

Please let us know if you require disability-related accommodation or other grounds protected by human rights legislation during the recruitment process so that we can work with you to meet your needs.
