## Quality Control Specialist

Come and join our dynamic team of highly skilled, passionate, creative professionals who together are advancing rare cell diagnostics and making precision medicine a reality. ANGLE Biosciences is conveniently located near Pearson International Airport with access to some of Canada's best academic and health researchers in the Greater Toronto Area. We utilize the innovative value of the diverse and talented culture of this region to continually enhance the R&D and diagnostic expertise of our company. We are an equal opportunity employer and provide a challenging and stimulating workplace environment.

### Position Summary

We are currently looking for a **Quality Control Specialist** to join our growing team. The successful individual has working knowledge of Quality, Manufacturing and Laboratory best practices and principles. You will have training and foundational knowledge in such areas as quality functions, procedures and principles, investigative techniques, and data collection techniques. This role regularly works to resolve process issues by reviewing standards and procedures of operation and performing audits as required.

### Essential Duties and Responsibilities:

- Coordinate product releases in compliance with cGMPs and company SOPs
- Change control procedures and SOP administration
- Log and review complaints, work with complaint documentation
- Maintain QA related manufacturing records
- File and maintain in order QA records
- In-house equipment calibration and coordination of external calibration activities
- Maintain calibration and qualification records
- Coordinate maintenance of QA related equipment and measuring devices
- Coordinate quality audits and inspections
- Maintain quarantined devices and raw materials
- Participate in corrective and preventive action activities
- Maintain CAPA records
- Report adverse events
- Implement design controls, verification and validation strategies in compliance with relevant regulatory guidelines and with minimal supervision

### Required Knowledge and Education:

- Minimum Bachelor's Degree in Biological Sciences or related field
- 5 years' experience working in a regulated environment in biomedical or pharmaceutical industry is required
- Certificate in Regulatory Affairs or Quality Control an asset
- Knowledge of Canadian and international regulatory and quality assurance regulations

**Required Skills and Core Competencies:**

- Excellent problem-solving skills, communication skills
- Strong interpersonal, oral and written communication, customer service and leadership skills
- Ability to multi-task in a time efficient manner
- Attention to detail
- Ability to work both independently and in a team environment
- Continuous learner with a keen appetite for cross-disciplinary work
- Flexibility and a “can do” attitude
- Entrepreneurial thinking and work ethic
- Proficient in Microsoft Office tools (Excel, Word, Project, PowerPoint)

**Highly Desired Experience:**

- 1-3 years research lab experience, preferably in an industrial biotechnology or diagnostic company operating in a regulated manufacturing environment
- Hands-on experience in running and troubleshooting immunoassays
- Experience in maintaining cell culture
- Experience operating in an ISO certified environment highly desirable

**How to Apply**

Please submit your resume, along with a cover letter to [jobsABI@angleplc.com](mailto:jobsABI@angleplc.com) or apply directly to our website at <https://angleplc.com/careers/>

Please reference in the subject line the role: “Quality Control Specialist”.

All applications will be kept confidential. We thank all candidates for their interest, but **only** candidates selected for an interview will be contacted.

**Please NO recruiters.**

At ANGLE Biosciences we value diversity and encourage applications from all qualified candidates including women, visible minorities, Aboriginal peoples, and persons with disabilities.

Please let us know if you require disability-related accommodation or other grounds protected by human rights legislation during the recruitment process so that we can work with you to meet your needs.
